

Hello and welcome to Holy Family School! I am very privileged to be a part of this faith-filled community, serving as the School Counselor at Holy Family. The role of the School Counselor is to help students, families, and teachers address challenges that students are facing that are impacting the student's education. As the counselor, I will be providing classroom lessons, small groups, and individual counseling sessions for those students in need. I will also work in collaboration with the faculty, administration, and parents. Our goal is to help students be comfortable in school and ready to learn each day.

God has certainly answered my prayers for an opportunity to serve my community in a meaningful and Christ-centered way! Professionally, I have served nearly 14 years in providing early intervention services in the Indiana First Steps program. I have also worked in community mental health, and I am an adjunct professor in the Human Services department at Ivy Tech. I am a Licensed Mental Health Counselor and a Licensed School Counselor.

My family and I have been members of Holy Family parish for many years. We have raised our children in the front row at the 11:00 am Mass. Our son is a college student and our daughter is in high school. My husband and I recently celebrated our 23rd year of marriage. I am so grateful to be here at Holy Family. Thank you for sharing your family with us!
